SANITARYWARE

COMFORT

Chairman's **Message**

It gives me immense pleasure to introduce our new brand **Glantonionia Ceramic** under the trusted umbrella of **Rudraksha Group**. This launch marks a significant milestone in our journey of innovation, quality and design excellence in the ceramic industry.

For last 28 years, we have been synonymous with durability, style and customer satisfaction. Our new brand builds upon this legacy, offering fresh designs, superior technology and sustainable solutions tailored to modern lifestyles and architectural needs.

Our vision is simple - to redefine living spaces with products that reflect beauty, strength and timeless elegance. Backed by state-of-the-art manufacturing and a passionate team, we are committed to delivering nothing less than the best.

I thank you for your continued trust and support. Together, let's create inspiring spaces that stand the test of time.

Mr. Raj Kumar Khandelwal
(Chairman)

About Us

The new range of Glanton Sanitaryware is all about re-inventing your world with design and strokes which are trending globally. The Finishes you choose will play a leading role in creating the look and feel of your dream bathroom. Give your bath spaces a new lease of life by composing a subtly luxurious look that's as unique, as you are, It gives your bathroom a unified look, which is also built to last.

MODERN

SANITARYWARE

Redefine your bathroom experience with sanitary ware that combines modern design with timeless durability.

MOULDING

A delicate layer of our signature glaze formula is expertly sprayed onto the casted surface, ensuring a flawless, high quality finish.

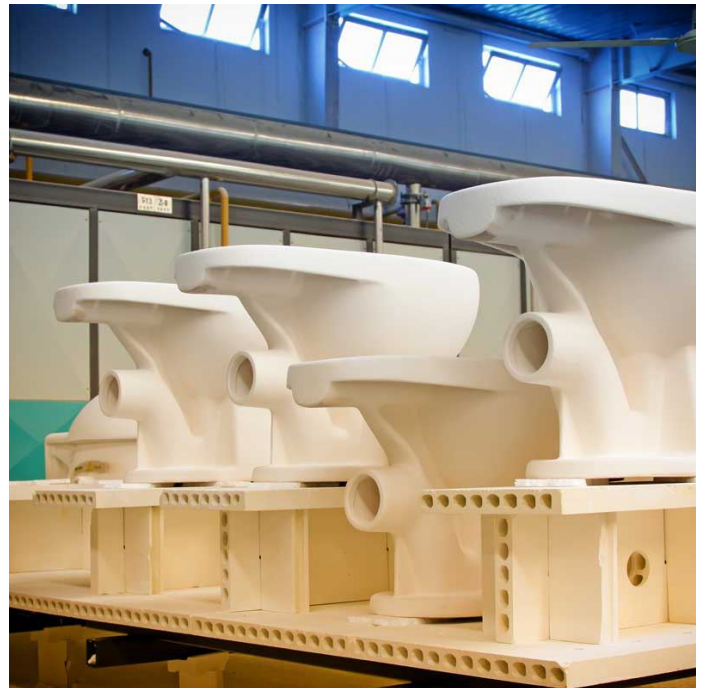

CASTING

Precision-applied glaze ensures a flawless finish, as our unique formula is evenly sprayed over the casted body.

GLAZING

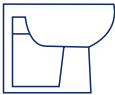

A delicate layer of our signature glaze formula is carefully sprayed onto the casted body.

FIRING

A perfect glaze, delicately layered for lasting brilliance.

MAINTENANCE

The Glantonía Sanitarywares have a smooth, impermeable and practically scratch-resistant surface, which is resistant to most of the acids and alkalis commonly encountered in the home.

For a daily care, you will usually only need water and a damp cloth. Tidemarks, grease and soap residues can be removed quickly and easily with a vinegar-based or bathroom cleaner.

Like any other part of your house, the bathroom can be made to look great if it is regularly taken care. Below are some basic tips that can help you to keep your bathroom glittering and fresh every day.

WASH BASIN

It needs to be washed with a mild detergent at least once a day. After washing, the basin must be wiped with a dry cloth to avoid water stains, especially on dark colours. Wash basins not cleaned for a long time can accumulate stains. To remove the stains, Diluted Hydrochloric Acid may be used.

CLOSETS

Use a plastic bristled brush with a plastic handle to scrub the toilet with a cleanser, at least once a day. After flushing the toilet, give it a “once over” with the brush to avoid minute discolouring.

In the case of closet, if there has been no maintenance over a long period of time, water deposits and discolouration are formed on the surface of areas that get wet. In such cases, these stains/marks can be removed with help of a solution of diluted hydrochloric acid. Do not use powder paste, thinner or dry cleaning liquids. To remove fine scratches, use Brasso or car rubbing compound and then polish cloth.

INTERNAL FITTINGS OF CISTERN

Accumulation of dust/sand coming through pipeline in the water on inlet and outlet rubber diaphragms may result in leakage of water. In case of such malfunctioning, all you have to do is open the inlet/outlet valve and clean the diaphragms or replace them. Use genuine spare parts only.
